

## Certified Food Protection Manager Training

All Risk Type 3 (high risk) food establishments need at least one certified food protection manager on staff. Currently there are three State-approved food safety programs:

\***Serv-Safe**- [www.servsafe.com](http://www.servsafe.com)

\***Thompson Prometric**- [www.prometric.com/foodsafety/default.htm](http://www.prometric.com/foodsafety/default.htm)

\***National Registry**- [www.nrfsp.com](http://www.nrfsp.com)

There are many private companies and organizations that administer these approved food safety programs. The list of companies and organizations below is just a partial list and is provided for your convenience. Note: List updated February 16, 2012.
